

InstantFOAM™ Non-Alcohol

Non-Alcohol Foam Hand Sanitizer

PRODUCT DESCRIPTION

Highly effective, lightly perfumed non-alcohol based foam hand sanitizer that kills up to 99.999% of many common germs in as little as 30 seconds when used properly.

WHERE TO USE

InstantFOAM™ Non-Alcohol is ideal for situations where critical hand hygiene is required, but alcohol-based/flammable products are a concern, such as: schools, prisons, health institutions and government facilities.

INSTRUCTIONS FOR USE

- Apply directly to dry and clean hands
- Wet hands thoroughly with product to keep them wet for 30 seconds and allow to dry without wiping
- No rinsing required

FORMAT: **FOAM**

FEATURES	BENEFITS
Non-Alcohol Based	For use in areas where alcohol is considered a risk or is not preferred.
Contains Benzalkonium Chloride	Product delivers antimicrobial efficacy with reductions of up to 99.999% of organisms tested.
Contains Aloe Vera	Helps prevent drying and leaves the skin feeling smooth after use.
Does Not Contain Gelling Agents	Unlike alcohol gel sanitizers, the product does not contain gelling agents that leave the hands feeling sticky, particularly after multiple uses.
Pleasant To Use	The freshly fragranced, rich foam is very pleasant for frequent use in-between hand washing, encouraging maximum compliance.
Mild Preservative	Specially formulated with one of the mildest preservatives to reduce the risk of skin irritation from using this product.

InstantFOAM™ Non-Alcohol

Non-Alcohol Foam Hand Sanitizer

STATUTORY REGULATIONS

This product is manufactured and labeled in compliance with the Federal Food, Drug and Cosmetic Act issued by the Food and Drug Administration (FDA).

SHELF LIFE

This product should be stored in the closed container at room temperature. Please consult the label for expiry date.

QUALITY ASSURANCE

SC Johnson Professional products are manufactured in facilities which follow Current Good Manufacturing Practice (cGMP) and/or Cosmetic GMP requirements.

All raw material used for production undergo a thorough quality control process before being used for manufacturing in our high quality products.

All finished goods are subject to intensive quality testing before being shipped out to our customers.

EFFICACY TESTS

Under test method ASTM E2783-11 product exhibits strong activity against a variety of Gram-positive and Gram-negative bacteria, as well as the yeast *Candida albicans*. In most instances, the reduction rates were up to 99.999% after a 30 second exposure period.

Of the organisms tested, the following passed at 99.99% efficacy: *Candida albicans* (ATCC 10231), *Micrococcus luteus* (ATCC 4698), *Salmonella enterica* (ATCC 14028), *Tricophyton mentagrophytes* (ATCC 9533), *Aspergillus brasiliensis* (ATCC 16404).

PRODUCT SAFETY ASSURANCE

Toxicological Approval

The product has been assessed by an independent toxicologist and has been declared to be safe for use on the hands of adults and children aged 3 and above.

Skin Compatibility Test

Independent clinical dermatological tests conducted to assess the skin compatibility of the product using voluntary test persons in semi occlusive, 48 consecutive hour application models, show the product to be non-irritating in use.

TEST TYPE	TEST STANDARD	TEST CONDITION	EXPOSURE	COMMENT
Bactericidal	ASTM E2783-11	in vitro	30-second	Time exposure kill evaluation of 15 bacteria species over 30 seconds
Yeasticidal	ASTM E2783-11	in vitro	30-second	Time exposure kill evaluation of <i>Candida albicans</i> over 30 seconds
Virucidal ¹	EN14476	in vitro	60-second	Deactivates Severe Acute Respiratory Syndrome-related Coronavirus 2 (SARS-CoV-2)(COVID-19 Virus), strain: USA-WA1/2020

¹This product is for hygiene purposes only and its use does not prevent or treat disease or provide any medicinal effects or benefits to the user.
